July 31, 1962

JUBILEE WISDOM

*Be attentive to God in prayer,
in the world around us,
and in our relationships
with others; expect God in
the unexpected; and realize
that God is in charge.*

-Joy Marie Parolari, SSND

Joy Marie Parolari, SSND

50 Years

Sister Joy Marie taught mathematics for almost 40 years at high schools and colleges. Her first teaching position was at West Catholic High School, Grand Rapids, Michigan. The rest of her teaching career was in Wisconsin at Catholic Central High School, Marinette; St. Mary Central High School, Menasha; Marian College, Fond du Lac; and Mount Mary College, Milwaukee. Additionally, she served the School Sisters of Notre Dame with her work in the provincial finance office on the Notre Dame of Elm Grove Campus, Elm Grove, Wis. and in the finance department of the SSND Generalate, Rome, Italy. Currently, Sister Joy Marie is serving as switchboard operator and receptionist for the Notre Dame of Elm Grove community in Elm Grove, Wisconsin.

Jubilee is a year of celebrating God's call, fidelity and grace.

For me, the blessings of these years include: the many gifts of friendships, community and family; the ability to share my teaching talent and love of mathematics with students on both the high school and college levels; and the opportunity to live community in both international and intercommunity settings.

The wisdom I would like to share...

Be attentive to God in prayer, in the world around us, and in our relationships with others; expect God in the unexpected; and realize that God is in charge.
