### **A long, active life in my favorite corner – school!**

Many students, many stories as their many lives unfolded. God was good!

### **The wisdom I would like to share is**

build positive attitudes. Each day is a gift from God for our use. Radiate God's peace and joy.

### **Seventy years have passed quickly.**

It has been a wonderful life in which I was "called and sent" to many different places, and shared life with many sisters in community. My prayer has always been – and is –

***"Take my life and let it be  
Consecrated more to thee.  
Take my moments and my days,  
Let them flow in endless praise."***
